## TOWN OF NOLENSVILLE

# Nolensville Volunteer Fire Department

## GENERAL FIRE PERMIT APPLICATION

# CONDITIONS FOR ISSUANCE (PLEASE READ)

#### **GENERAL**

- 1. The burning shall not present a health hazard, nor generate noxious or toxic fumes.
- 2. The smoke shall not create a public nuisance.
- 3. Disposal of "Wood Waste" is any product that has not lost its basic character as wood, such as bark, sawdust, limbs, tree trunks, chips and chemical untreated lumber whose "disposition" by open burning is to solely get rid of or destroy. Priming materials used to facilitate such burning, as wood waste and vegetation are limited to #1 or #2 grade fuel oil. Burning of wood waste shall require an "Air Curtain Destructor", or other approved device.
- 4. Open burning of tires, vinyl products, fiberglass/asphalt shingles, styrofoam products, plastic products and fallen leaves are prohibited.
- 5. No person shall kindle or maintain any bonfire or rubbish fire or authorize any such fire to be kindled or maintained on any private land unless the location is not less than 50 ft (15.2m) from any structure and adequate provision is made to prevent fire from spreading within 50 ft. (15.2 m) of any structure, or the fire is contained in an approved waste burner located safely, not less than 15 ft. (4.6 m), from any structure.
- 6. A garden hose with a shutoff nozzle shall be provided as follows:
  - a. The hose shall be long enough to reach at least 15 ft. (4.6 m) beyond the, furthest pile.
  - b. The hose shall be connected to a continuous water supply source.
  - c. The hose line shall be charged with water at all times during the period of burning, or a bulldozer with an operator on site is required.
- 7. Burning shall not be permitted before 9:00 a.m., or after 3:30 p.m.
- 8. There shall be a qualified party assigned the sole duty of attending the fire from the time it is first set until it is totally extinguished.
- 9. All fires shall be within 250 ft. (76.0 m) of an approved access road for fire apparatus.

#### **BONFIRE/COOKOUT**

- 1. All general conditions apply, with the exception of item #6, where an approved means of controlling the fire shall be present.
- 2. Burning shall not be permitted before 9:00 a.m., not after 12:00 midnight, except for cooking related fires.
- 3. The size of pile to be burned shall be determined by the fire official.

#### LAND CLEARING

- 1. All general conditions apply.
- 2. An Air Curtain Destructor, or other approved device is required.

#### **DEMOLITION**

- 1. All general conditions apply, with the exception items #1, #3 or #4 where there is no means of controlling.
- 2. A state or local building code order/permit to demolish the structure by open burning shall be provided to the fire official prior to issuance.

# **WARMING FIRES**

- 1. Maintain at least 15 ft. (4.6m) clearance from structures or flammable materials.
- 2. Warming fires shall not be permitted inside structures
- 3. Warming fires shall be monitored by a responsible person at all times.
- 4. Warming fires shall be built in metal containers and hardware cloth spark screens provided.
- 5. Warming fires shall use wood waste only.
- 6. Fire extinguishment methods, (water buckets, metal covers, garden hose connected to an established water supply), shall be provided for warming fires.
- 6. Warming fires shall be extinguished by a responsible person before leaving the site.
